USER MANUAL

Zone Portal

For zone / franchise partners

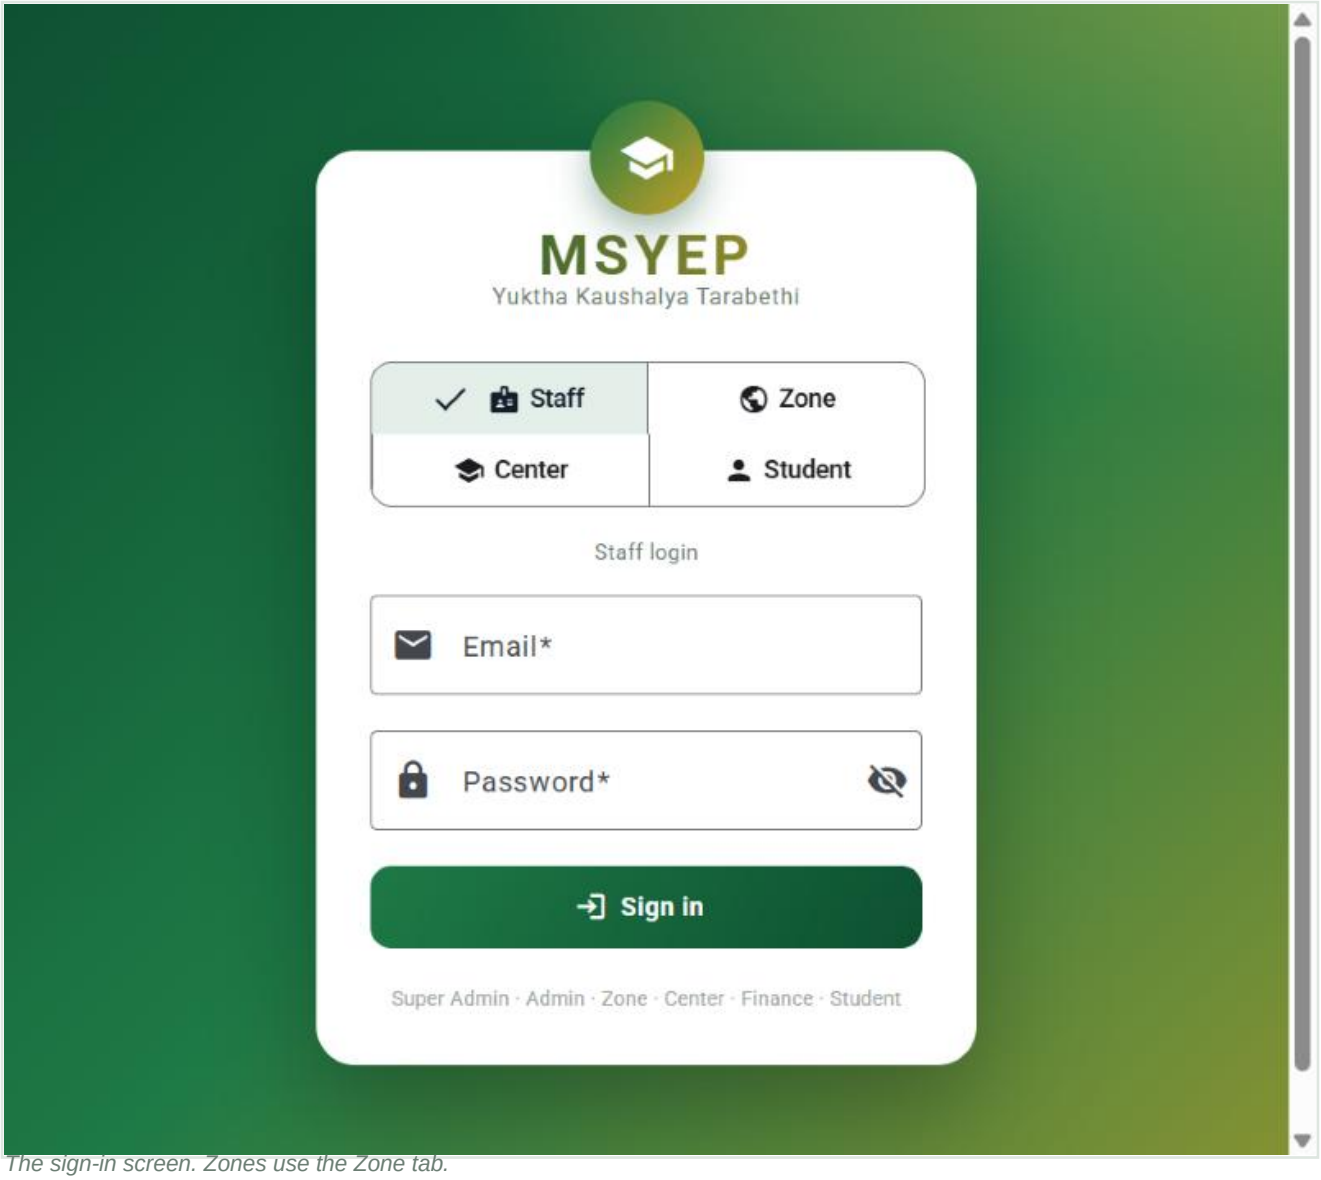

A zone is a franchise partner - usually a university or trust - running MSYEP through a number of colleges. This manual covers creating and managing those centers, their students, staff and training programmes.

In this manual

1. Signing in
2. Your portal at a glance
3. Center Management
4. Students Management
5. SOW, Resource Person and Staff
6. Modules not yet available
7. If something goes wrong

Version 1.1 · 23 October 2026

Signing in

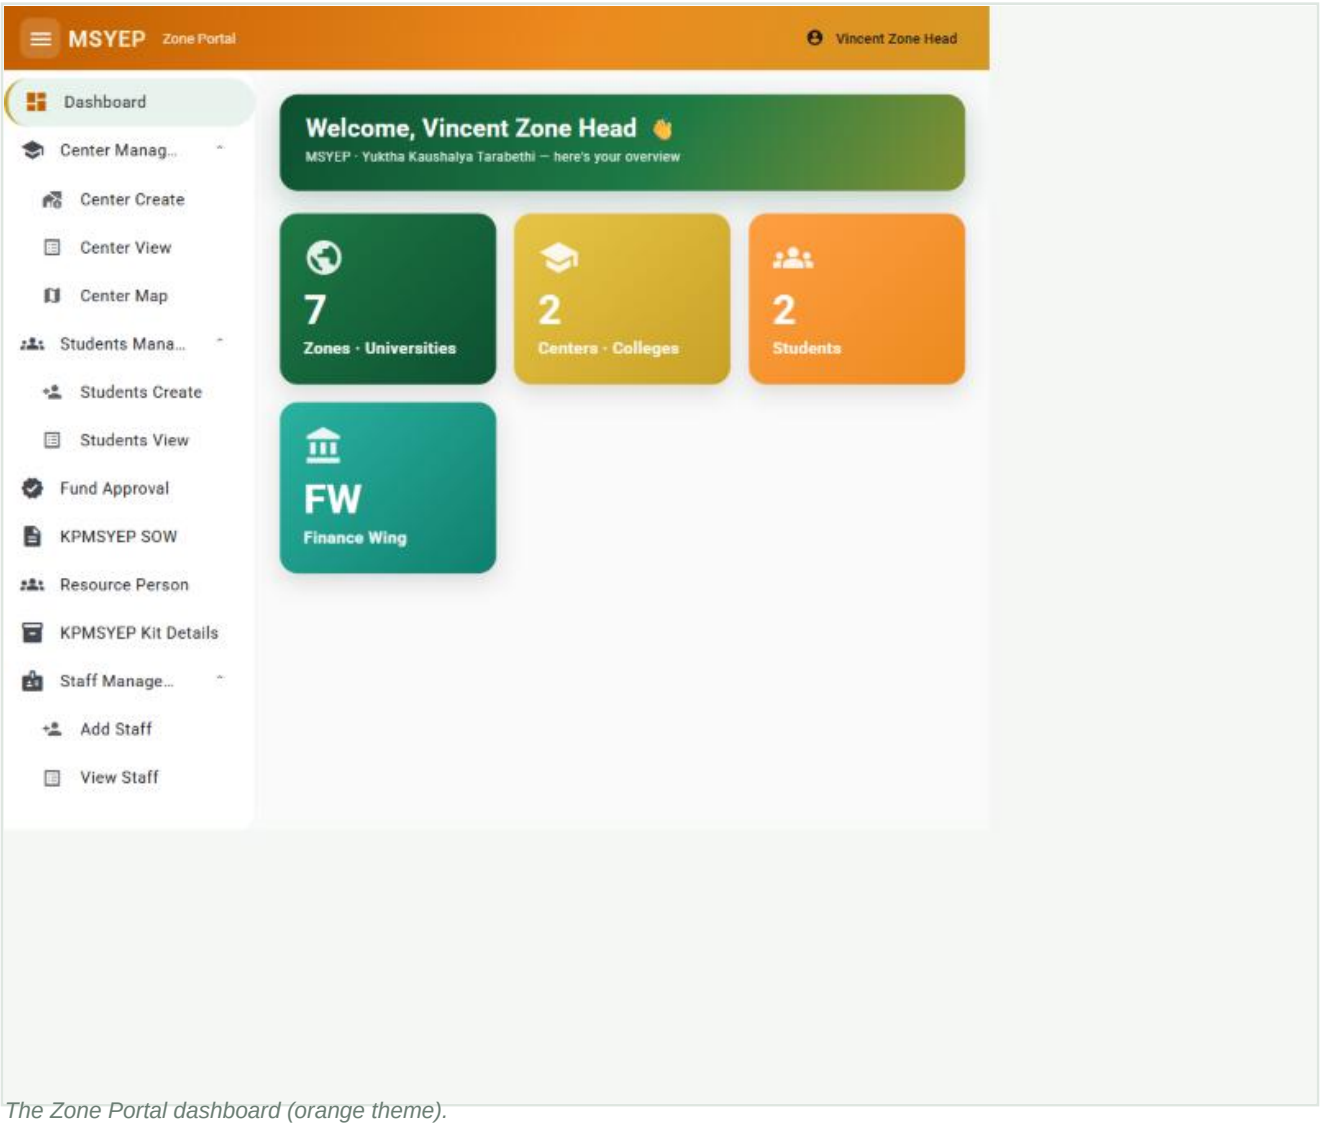

The sign-in screen. Zones use the Zone tab.

1. Click the Zone button.
2. Enter the User ID set up for your zone (usually your email).
3. Enter your password. The eye icon shows what you typed.
4. Click Sign in.

> If you see "Waking up the server...", wait up to a minute - the server sleeps when idle.

Forgotten your password? Only an MSYEP administrator can reset it, from the Logins page.

Your portal at a glance

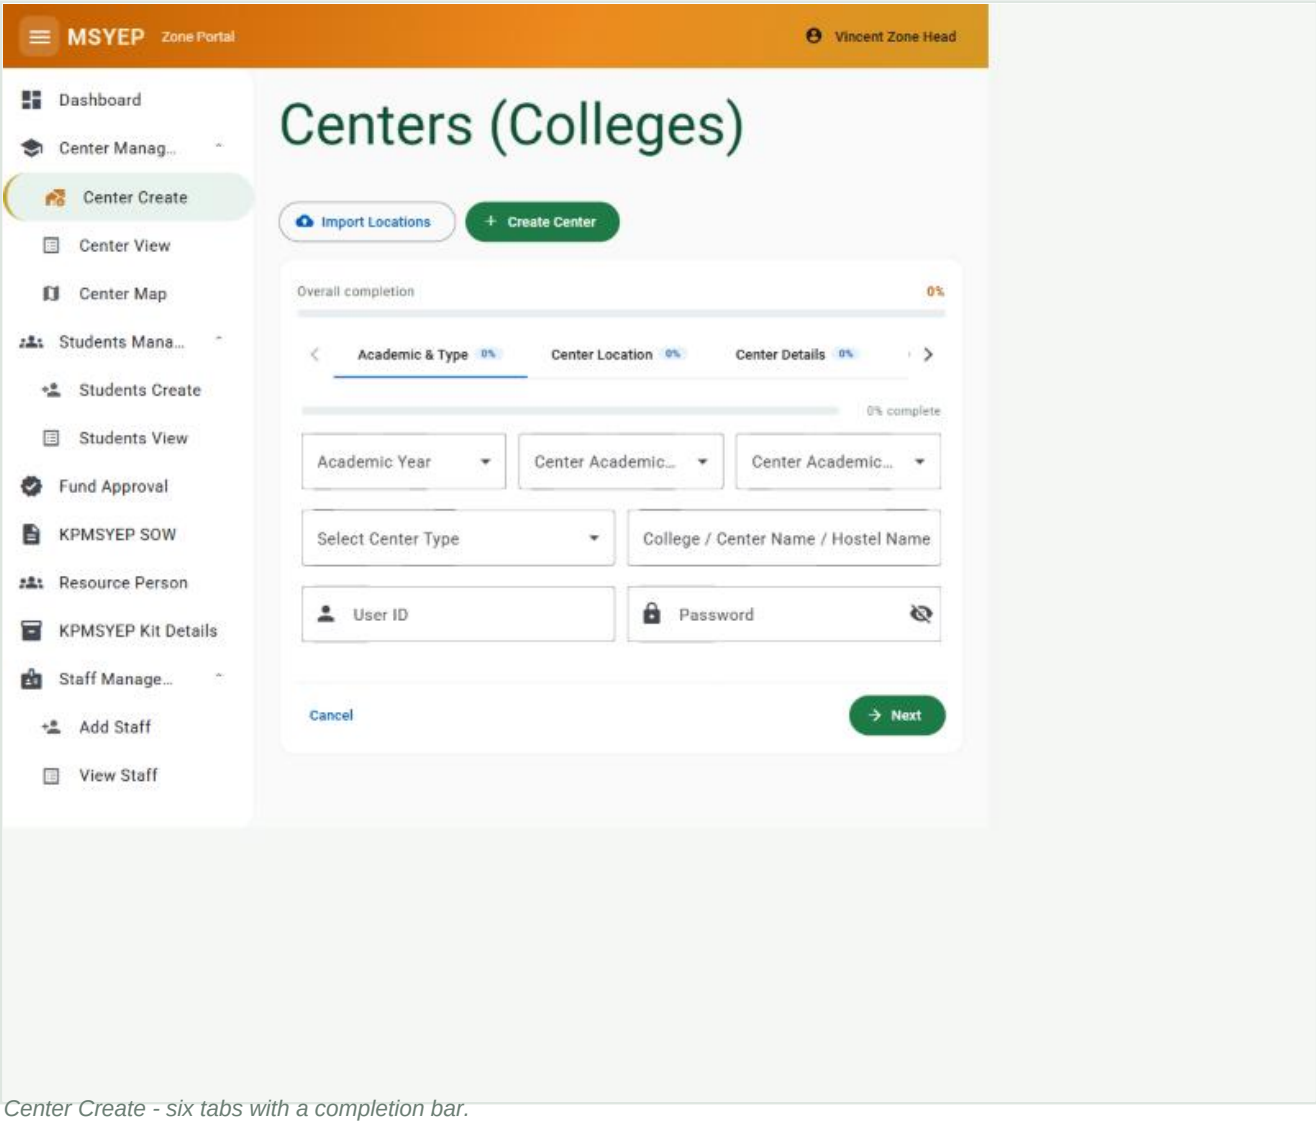

The Zone Portal dashboard (orange theme).

- Center Management - create and view your colleges, and see them on a map.
- Students Management - create and view students across your centers.
- Fund Approval - see the note below.
- KPMSYEP SOW - the eight training programmes for each of your centers.
- Resource Person - trainers attached to a center.
- KPMSYEP Kit Details - see the note below.
- Staff Management - the people working in your zone.

> A zone cannot create another zone, and cannot see other zones' data. Only MSYEP administrators create zones.

Center Management

Center Create - six tabs with a completion bar.

Add each college or hostel running the programme under your zone. The form has six tabs; you can save and come back.

Tab 1 - Academic & Type

Field	What to enter
Academic Year	The year this center is set up for.
Center Academic Start / End Month	Their academic calendar.
Select Center Type	College, hostel or other.
College / Center Name	Pick an existing college or type a new one.
User ID	The login for this center - normally its email.
Password	The center's first password. Pass it on to them.

Tab 2 - Center Location

Field	What to enter
Center District / Taluk / Village or GP	Where the center is.
MSYEP Center Address / Locality / Pincode	Full address.
Zone (University)	Your zone.

Tab 3 - Center Details

Field	What to enter
Batch Year	The batch this center runs.
Center Mail-ID	Where all mail to this center is sent.
Center Office Number	Office phone.
Principal Name / Number	Head of the institution.
UUCMS / Computer Operator Coordinator	Name and number.
SC-ST Cell Coordinator	Name and number.
Placement (Kaushalya Patha) Coordinator	Name and phone.
Center has a website?	Tick if yes.

Tab 4 - Course Details

Field	What to enter
Enter your Center Courses	Type a course and press Enter, once per course.
Center Total Strength	Total students at the center.
3rd/4th Sem or 1yr - Total / SC / ST / General	Student numbers by category.

Tab 5 - MOU Details

Field	What to enter
MOU Date (from) / (to)	Period the MOU covers.
Year of Contract	Contract year.

Tab 6 - Documents

Field	What to enter
Document uploads (10 slots)	The center's supporting documents.

Center View and Center Map

- Center View lists your centers, with District / Taluk / GP filters and a search box.
- The pencil edits a center; the other icons open its documents.
- Center Map plots your centers using the location fields you entered.

Students Management

Students Create

Seven tabs, the same form centers use.

Field	What to enter
Account	Student Name, Student Email, Mobile No.
Personal Details	Gender, Date of Birth, Caste, Father Name, Mother Name.
Education	School / college studied, percentage or CGPA, year of passing, stream or course.
Job	Current qualification, internship interest, hobbies, technical-skills checklist, career goal.
Address	Zone and Center (required), plus full address.

MSYEP Allotments	Course joining date and placement.
Documents	Seven upload slots.

> The Password boxes on the Account tab are optional. Fill them in and the student can sign in immediately with their mobile number or email. Leave them blank and an administrator must set a password later from the Logins page before the student can get in.

Students View

- Filter by District, Taluk, Gram Panchayat, Center or Caste, or search by name, registration number or email.
- Export to Excel downloads whatever the filters are showing.

SOW, Resource Person and Staff

KPMSYEP SOW

1. Open KPMSYEP SOW.
2. Choose one of your centers.
3. Its eight training programmes open. Fill in the details and photos for each.
4. Download a single programme, or all eight as KP-MSYEP-Training-Programs.pdf.

Each programme records the inauguration date, the guest (name, phone, designation), the eight group names, who did each part of the programme - anchoring, welcome speech, Preamble reading, three queries, vote of thanks, honouring, guest opinion - and a photograph for each.

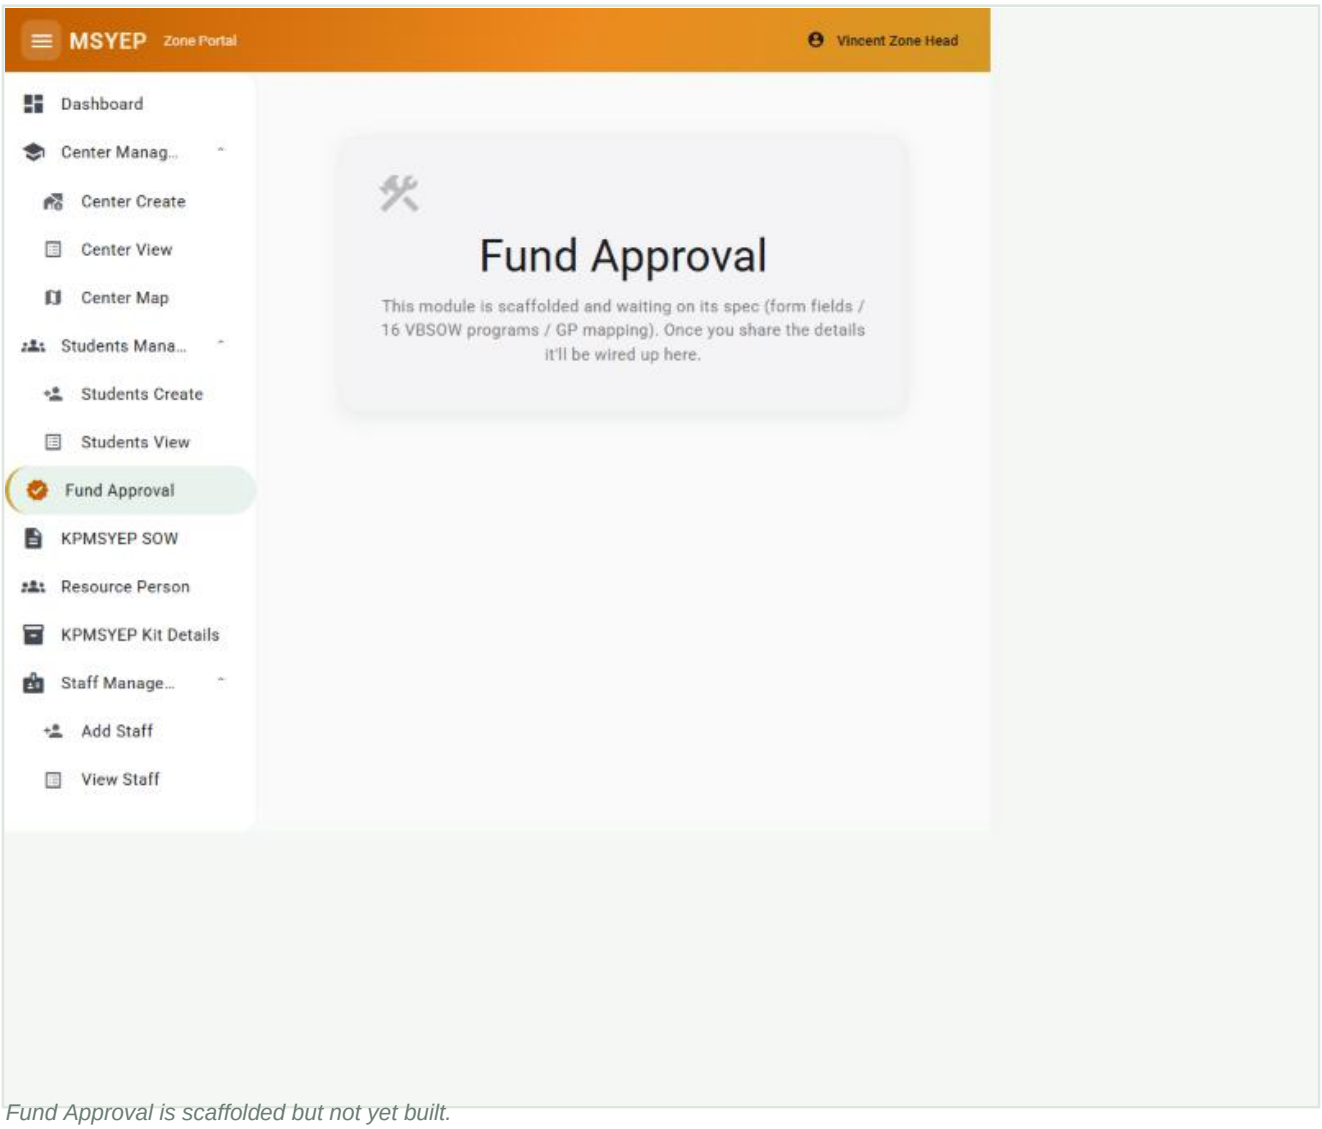

Resource Person

Choose a center to see and manage the trainers attached to it.

Staff Management

Field	What to enter
Name / Designation / Phone / Email	Staff Details tab.
Zone (University) / Center (College)	Where this person works.
District / Taluk / Village or GP	Their location.

Modules not yet available

Fund Approval is scaffolded but not yet built.

Two menu items are placeholders. Opening them shows a notice rather than a working screen:

Field	What to enter
Fund Approval	Waiting on its specification - form fields, the 16 VBSOW programmes and GP mapping.
KPMSYEP Kit Details	Waiting on its specification.

> These will be wired up once the details are provided. Until then, handle fund approvals through your usual offline process.

If something goes wrong

Field	What to enter
"Waking up the server..."	Normal. Wait up to a minute.
A center cannot sign in	Check the User ID in Tab 1 of their record, and ask an administrator to reset the password.
A village or taluk is missing	An administrator adds it on the Location page; it then appears everywhere.

You cannot create a zone	Correct - only administrators create zones.
A student cannot sign in	They probably have no password yet. An administrator can set one.
